

**4th International Congress on  
Invertebrate Morphology  
18 – 23 August 2017  
Moscow, Russia**

## **Call for Symposia**

Dear Colleagues,

We would like to draw your attention to the above congress ICIM4 and inform you that the call for symposia is now open. Please send your proposals for symposia not later than July 10, 2016 to Natalia M. Biserova, e-mail: [nbiserova@yandex.ru](mailto:nbiserova@yandex.ru).

The proposal should contain the following information:

**Topic** (the theme of symposia should have a more wide than narrow focus, thus covering a wide range of questions in order to be attractive for scientists from various research areas)

**Scientific importance** (please provide short text (approx. half a page), which will describe the importance of your symposium in the context of the Congress)

**Recommended speakers + prospective participants** (please prepare a list of participants: this list should include information about one Keynote speaker and 5-6 participants with shorter oral presentations. Please state the affiliation of participants and their addresses including email, and a short description of their research area)

We kindly ask you, to consider the possibility of finding a sponsor of your symposium, for example, in covering the travel expenses for the keynote speaker. Sponsors will be indicated in the program and included in the list of sponsors

We are looking forward to seeing you all in Moscow,

Natalia M. Biserova,

President-elect of the International Society for Invertebrate Morphology

Elena N. Temereva, Chair of the Local Organizing Committee

For further information on the conference, please contact us
